About

The **Voter Registration and Voting Estimates for the 2014, 2016 and 2018 November Elections** measures voter participation in Harris County, Texas, by age.

The age group tables and charts in this presentation were produced by extracting voter birth-year figures from official county voter registration and voting records. The birth-year figures were sorted at 5-year intervals and calculated.

The information on this presentation is deemed *estimates* because some voter records provide the birth-year of a voter while others provide exact date of birth. For the sake of uniformity, the *estimates* were done using birth-year. Although the methodology does not produce exact percentages, the impact to the percentages is negligible.

Question related to the voter registration and voting estimates on this presentation should be addressed to Hector de Leon, hdeleon@cco.hctx.net or 713.274.9560.

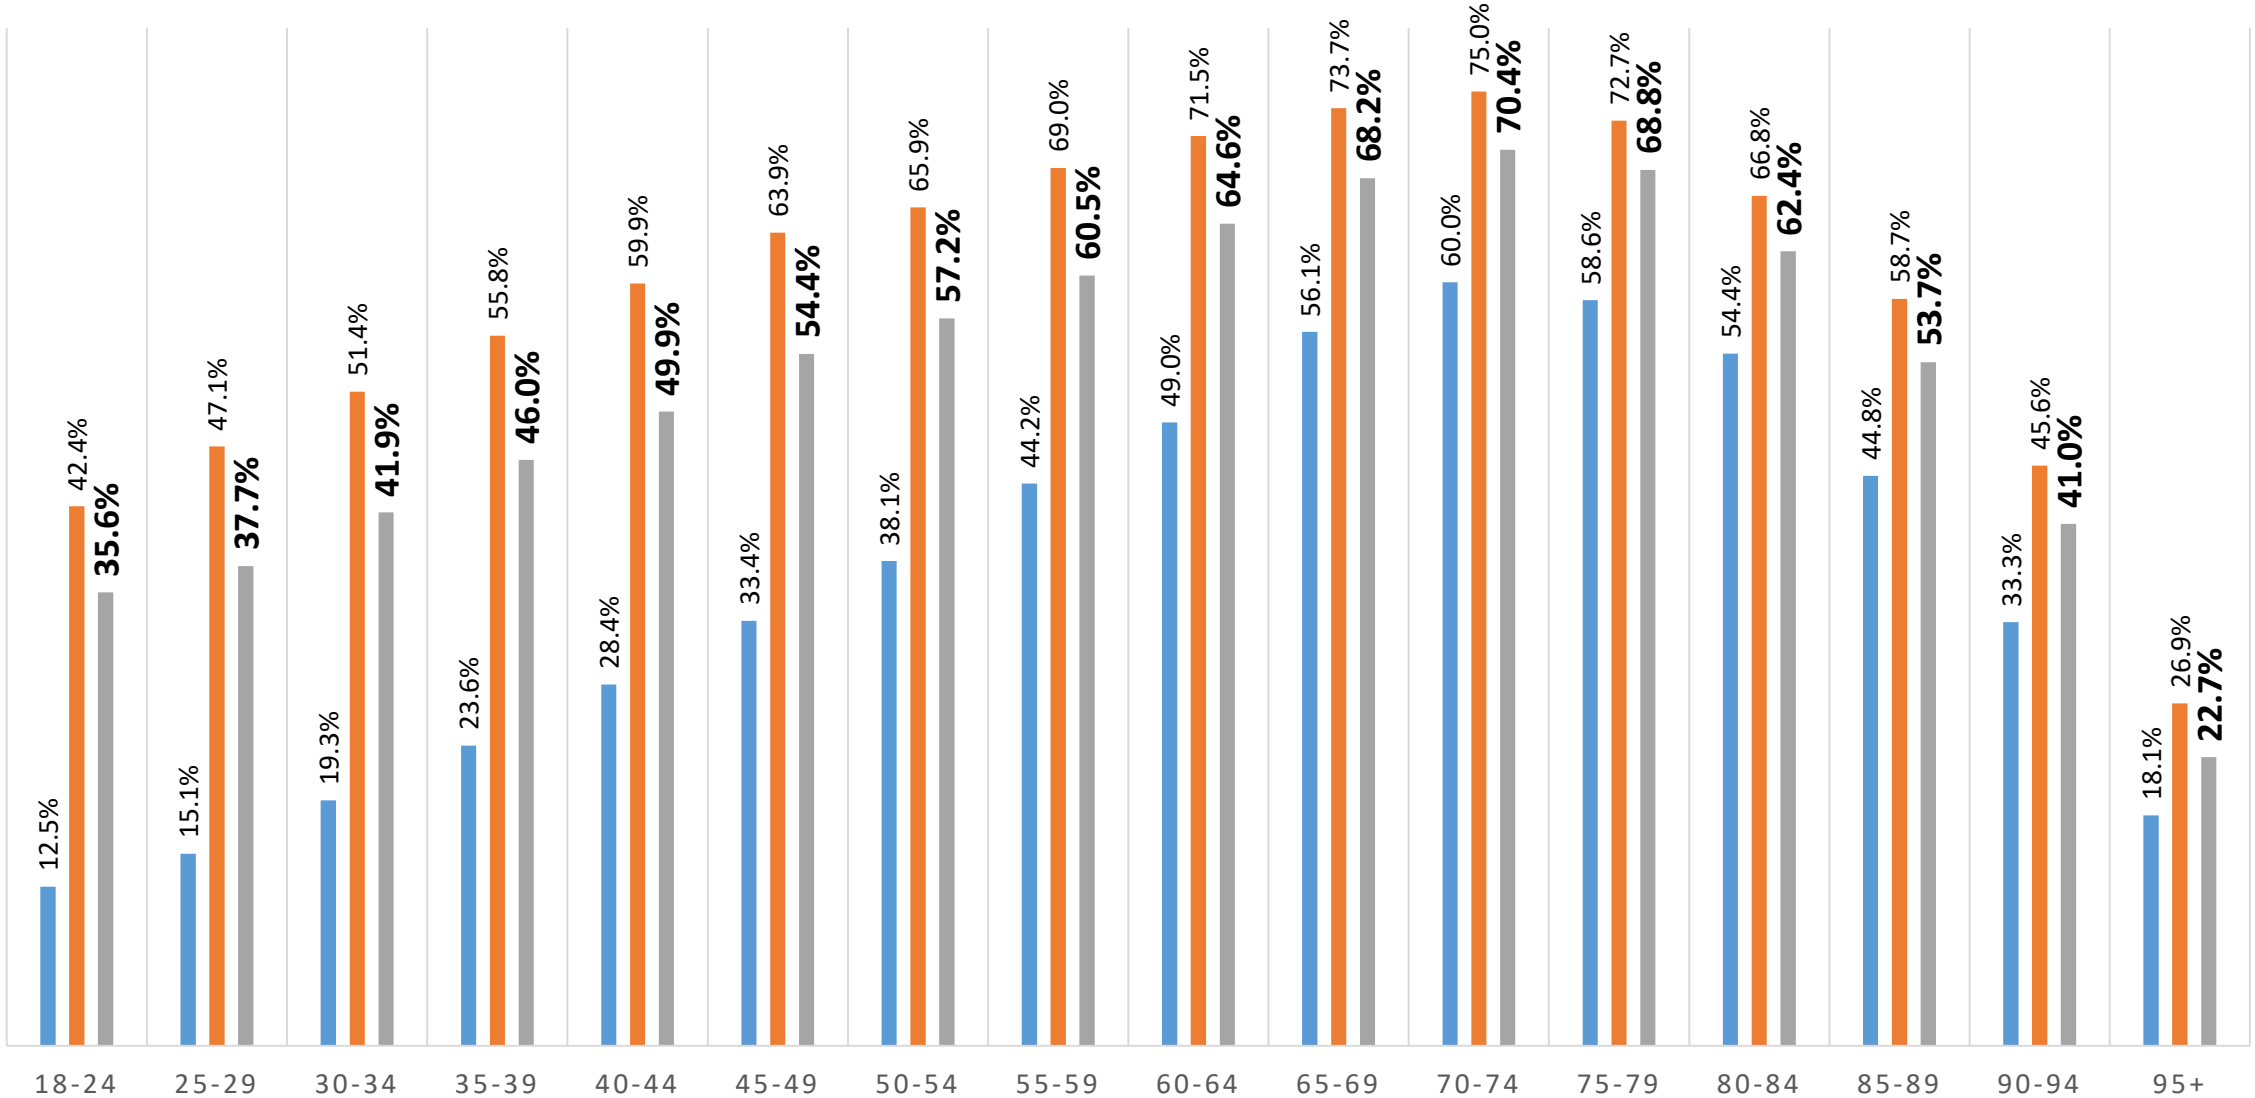

Voter Registration and Voting Estimates: 2014, 2016 and 2018 November Elections Estimates: Harris County, Texas
